June 16, 2005

Dear Sirs/Madam,

I am writing to you concerning the proposed SBC/AT&T and Verizon/MCI mergers, which are known as WC Dockets 05-65 and 05-75, respectively. These mergers, should they be allowed, would definitely harm and stifle competition while decreasing options while increasing prices.

DOCKET FILE COPY ORIGINAL

Furthermore, in this country at the very moment a "digital divide" exists. If this merger is allowed, then the 60 some percent of Americans that don't have high-speed Internet service, will be faced with even higher broadband serviced, plus other services offered by the communications company's.

Years ago, AT&T, then a giant, was forced to break up because of a monopoly. Now here again, we are faced with the same dilemma as before. If this merger is granted, then only two companies will control 90 percent of the consumer market. A merger of this proportion would put the interests of large corporations over the interest of the public and individual consumers.

I understand that the United States is lagging behind many of the upbeat countries of the world in the area of broadband deployment. Japan, for instance, has paved the way for broadband and cable lines to competitors.

I urge the FCC to block the merger of the above mentioned companies and docket numbers and allow competition to reign. Better service to all Americans at affordable prices.

Thank you for your time and attention.

Sincerely yours,

Richard N. Jobelius
